Let us tell you a story about Land of Legends

Ljungby is the heart of the Land of Legends. So much of the Swedish oral storytelling tradition was written down right here in southwest Småland. This is where tales from the past have travelled through the ages, by word of mouth and from generation to generation.

The Museum of Legends is home to the cultural heritage of oral storytelling, fairy tales and folklore. Step into the world of fairy tales with the museum's many collections and meet the storytellers of the past. Fantastical treasure hunts fit for a fairy tale that the whole family can enjoy.

In November 2018, the Land of Legends was officially added to UNESCO's Register of Good Safeguarding Practices in recognition of the work done to preserve intangible cultural heritage. As only the 20th site ever to be added to the register globally, the Land of Legends is the first and only site in Sweden included in the register to date.

The Museum of Legends offers experiences for both young and old. Are you brave enough to discover what's in the belly of the lindworm?
